

# Villa Teresa

This very high quality recently constructed villa using only the best possible materials and with an extreme high construction specification. On the ground floor we have a large entrance hallway that leads to a nice spacious living room that is divided into a dining area, living area and kitchen area which is fully equipped, all with direct access to the south facing terraces. Furthermore there are two bedrooms with bathrooms en suite at the ground floor level. On the first floor one will find two master suits all with their private individual terrace. This property has a very large basement in which the pre-construction for a home cinema has been carried out and good size garage with a laundry area,...
